MEMORANDUM FOR: Assistant for Administration, NPIC

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Proposed CIA Regulation on Photographic Support

1. The proposed approach as stated in paragraph #2 of your 27 April memo is preferable to that in paragraph #3.

2. I believe that it might be difficult not to acknowledge an "exploitation" type function as a responsibility of Graphics Register. The recognition of this function would be acceptable if you were to substitute "identification" for exploitation where appropriate. This has been noted directly on your revised version of the proposal.
